Secretary's Corner

Those of you who were in Lodge on September 7th heard the reading of the letter from Grand Lodge regarding their Budget and the setting of the Per Capita amount for next year to \$29.00. That's almost half of our total per-member dues (\$60.00). Needless to say, we will be hurting next year for funds. In the coming months **your** lodge will desperately need your attendance **in lodge** while we attempt to mold a solution for the obvious deficiencies in the upcoming financial year's revenues. Please help!!!

Even though we might not agree on what's funny, most people consider a sense of humor to be a virtue. But it also has tangible benefits for the body. For starters, humor frequently triggers laughter, and laughter increases circulation. According to Dr. William Fry, associate clinical professor emeritus of psychiatry at Stanford University School of Medicine, laughing one hundred times a day gives the same boost to the heart and lungs as ten minutes of rowing. It also strengthens the immune system.

Laughing also helps the mind, improving one's sense of well-being by releasing endorphins - natural "feel-good" chemicals - into the bloodstream. When humor triggers laughter, it acts as a safety valve to relieve tension. It also helps us vent frustration and deal with tragedy. After devastating floods in Minnesota, a store owner erected a sign: Wanted, Waitress. Must be able to do backstroke.

And finally, for many of us, having a sense of humor contributes to our self-esteem. Nobody wants to be told they lack a sense of humor, says Dr. Christopher Peterson, who uses humor in his private practice. Peterson, a professor of psychology at the University of Michigan, reports that "85 percent of Americans claim an above-average sense of humor." Not only that, but "men and women rate a sense of humor among the top four traits they covet in a spouse," which shows the weight they place on it.

The following is a transcript of an actual radio conversation between a British Royal Navy ship and the Canadian authorities of the coast of Newfoundland:

Canada: Please divert your course 15 degrees to the south to avoid a collision.

Royal Navy: Recommend you divert your course 15 degrees to the north to avoid collision.

Canada: Negative, you will have to divert your course 15 degrees to the south to avoid collision.

Royal Navy: This is the captain of a Royal Navy ship. I say again, divert your course.

Canada: No, I say again, you must divert your course.

Royal Navy: This is HMS **k R**** of Her Majesty's fleet. We are accompanied by three destroyers, three cruisers, and numerous support vessels. I demand that you change your course 15 degrees to the north. I say again, that's one five degrees north, or countermeasures will be undertaken to ensure the safety of this ship.

Canada: This is a lighthouse....Your call!

If we can ease a brother's sorrow
And aid him in distress
If we can brighten his tomorrow
With deeds of kindness
Then we have found God's meaning
Of the word called Charity
For when we give ourselves away
We've found life's mystery.

From the Coaches Corner

Brethren, our Blue Lodge is dying. What is the really sad part of that is that not too many people seem to care.

Why did you join Masonry? Because your friends belong! Because many famous people are Masons! For the prestige of being a Mason! For the social activities of other Masonic Bodies!

Just prior to your initiation as an Entered Apprentice Mason, you were asked three questions concerning Masonry. The second question asked if you had a desire for knowledge and a sincere wish to be serviceable to your fellow creatures. We all answered those three questions with a yes.

I your answer still yes?

Without participation, the Blue Lodge will die, and shortly thereafter the other Masonic Bodies will follow.
